Brera - The perfect blend

Take the styling prowess of perfectly balanced forms, clean lines and generous interior equipment. Add a touch of unmistakable Italian styling from Giorgio Giugiaro. Carefully blend Alfa Romeo's prestigious sporting tradition and years of racing experience on the world's toughest circuits.

Flavour with advanced technology and powerful engines capable of delivering a unique motoring experience. The result is the Alfa Romeo Brera: an all-Italian sporting thoroughbred.

Sportiness at its heart

The Brera combines evolved motoring with traditional sporting spirit. That is why it offers a choice of two brand new engines that embody all the technological know-how and excitement of Alfa Romeo whilst also respecting the environment.

The first is the 1750 TBi Turbo Petrol 200 bhp engine. Thanks to generous torque at impressively low revs (maximum torque is delivered at only 1400 rpm), this engine offers superb acceleration without you having to “work” the gearbox. With its variable geometry turbocharger, the second 2.0 JTDM 170 bhp diesel engine shares the same sporting character and delivers impressively low fuel consumption. Both new engines already conform to Euro 5 standards.

Evolved performance

Power, innovation, reliability

Only the most thrilling engines will do for the Brera. In addition to the new Euro 5 engines, the Brera can also be equipped with the technically superb, 3.2 JTS V6 260 bhp with Q4 four wheel drive, also available with a Q-Tronic automatic transmission. The 3.2 V6 incorporates Alfa Romeo's exclusive Twin Phaser variable valve timing system that delivers amazing torque even at low engine speeds. The Brera also comes with the 2.4 JTDM common rail turbo diesel. Delivering the ultimate in power and reliability, this engine is available in a 210 bhp version and in a 200 bhp version with a Q-Tronic automatic transmission.

Engines

Every Alfa Romeo has your safety as its priority

Forget your worries and concentrate on enjoying the drive. The raised double wishbone front suspension and multilink rear suspension give you superb handling without compromising safety and stability in any way. To optimise handling, Alfa Romeo's Electronic Q2 system uses the VDC control unit to create an effect similar to that of a limited slip differential, but using the car's braking system instead. Electronic Q2 combines the benefits of front wheel drive and four wheel drive to improve road holding, traction and stability.

The Brera's evolved electronics ensure you never lose control: ABS with EBD, VDC, ASR, MSR (to avoid loss of grip during rapid gear changes on slippery surfaces) and Hill Holder (for easy starting on slopes). To protect its passengers, the Brera's body shell features a highly effective impact absorbing design and an interior with seven airbags, all fitted as standard: front, side, window and knee.

Handling and control

Technical excellence

Driving a Brera creates a feeling of enthusiasm not only in the driver but in its passengers too. If you love driving on challenging roads, remember that the 3.2 JTS V6 Q4 comes with permanent four wheel drive technology and a Twindiff central differential; an evolution of the Torsen C, that ensures permanent dynamic distribution of engine torque to all four wheels to match driving conditions.

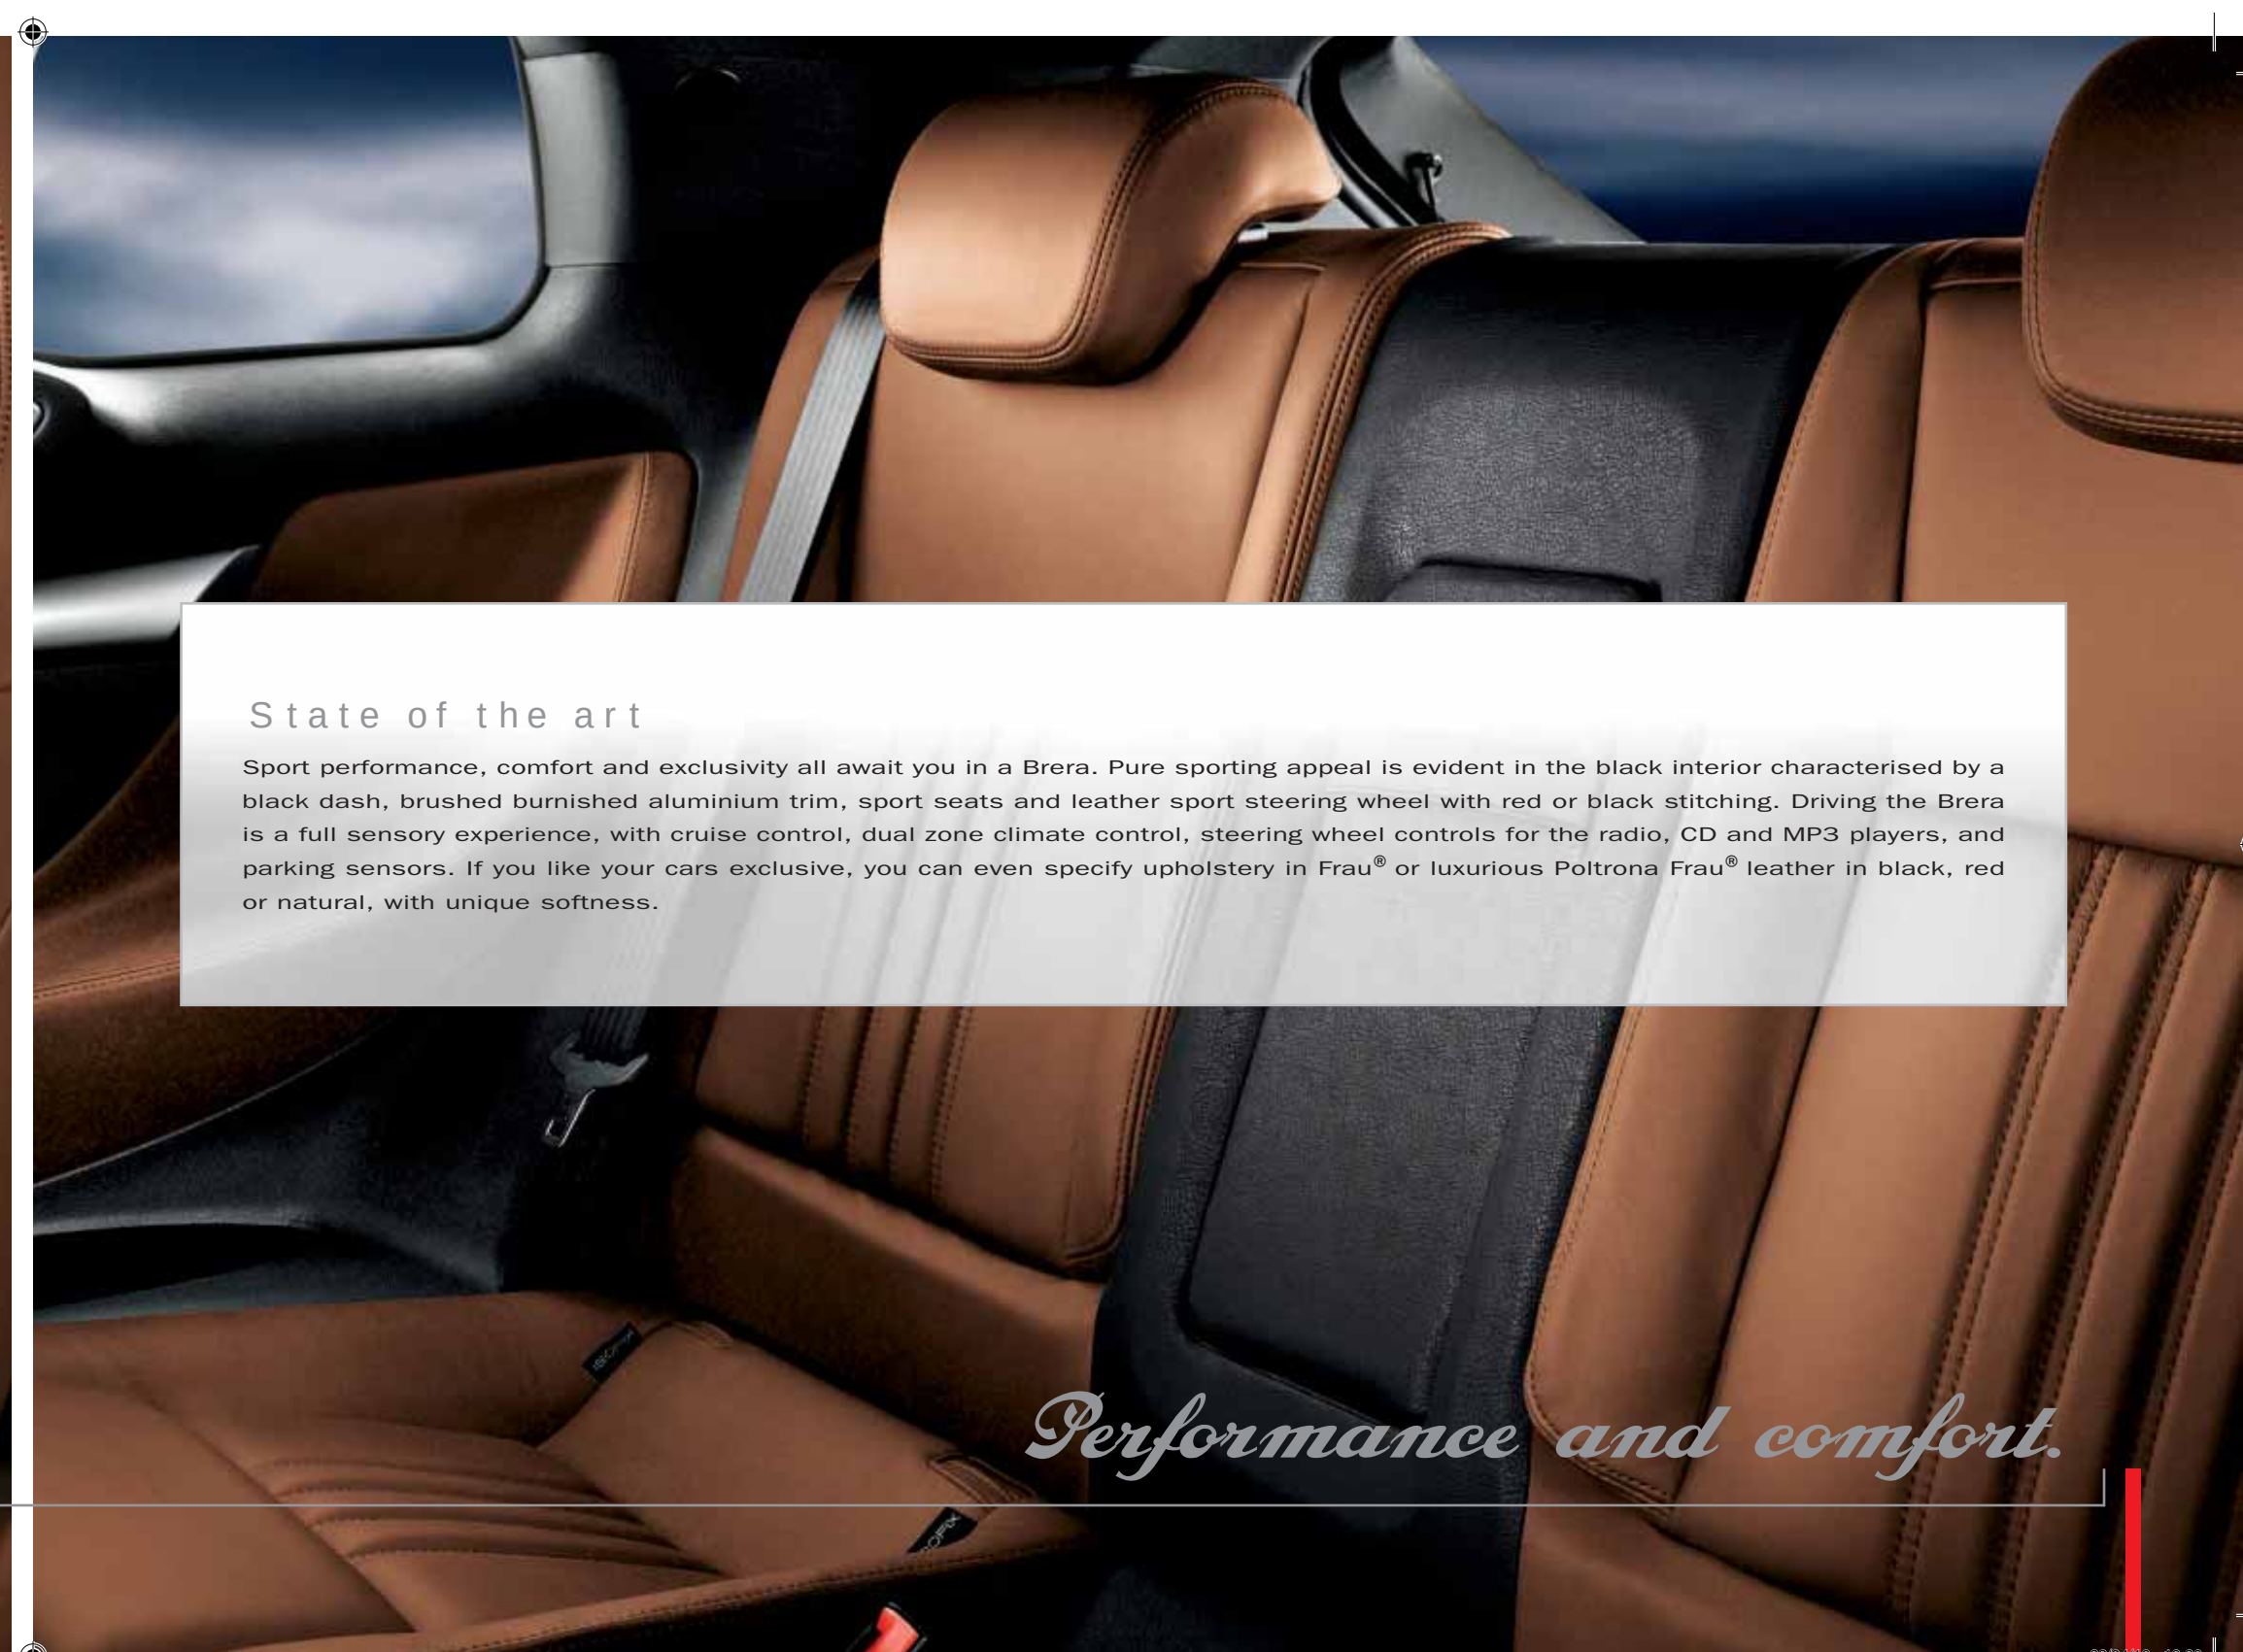

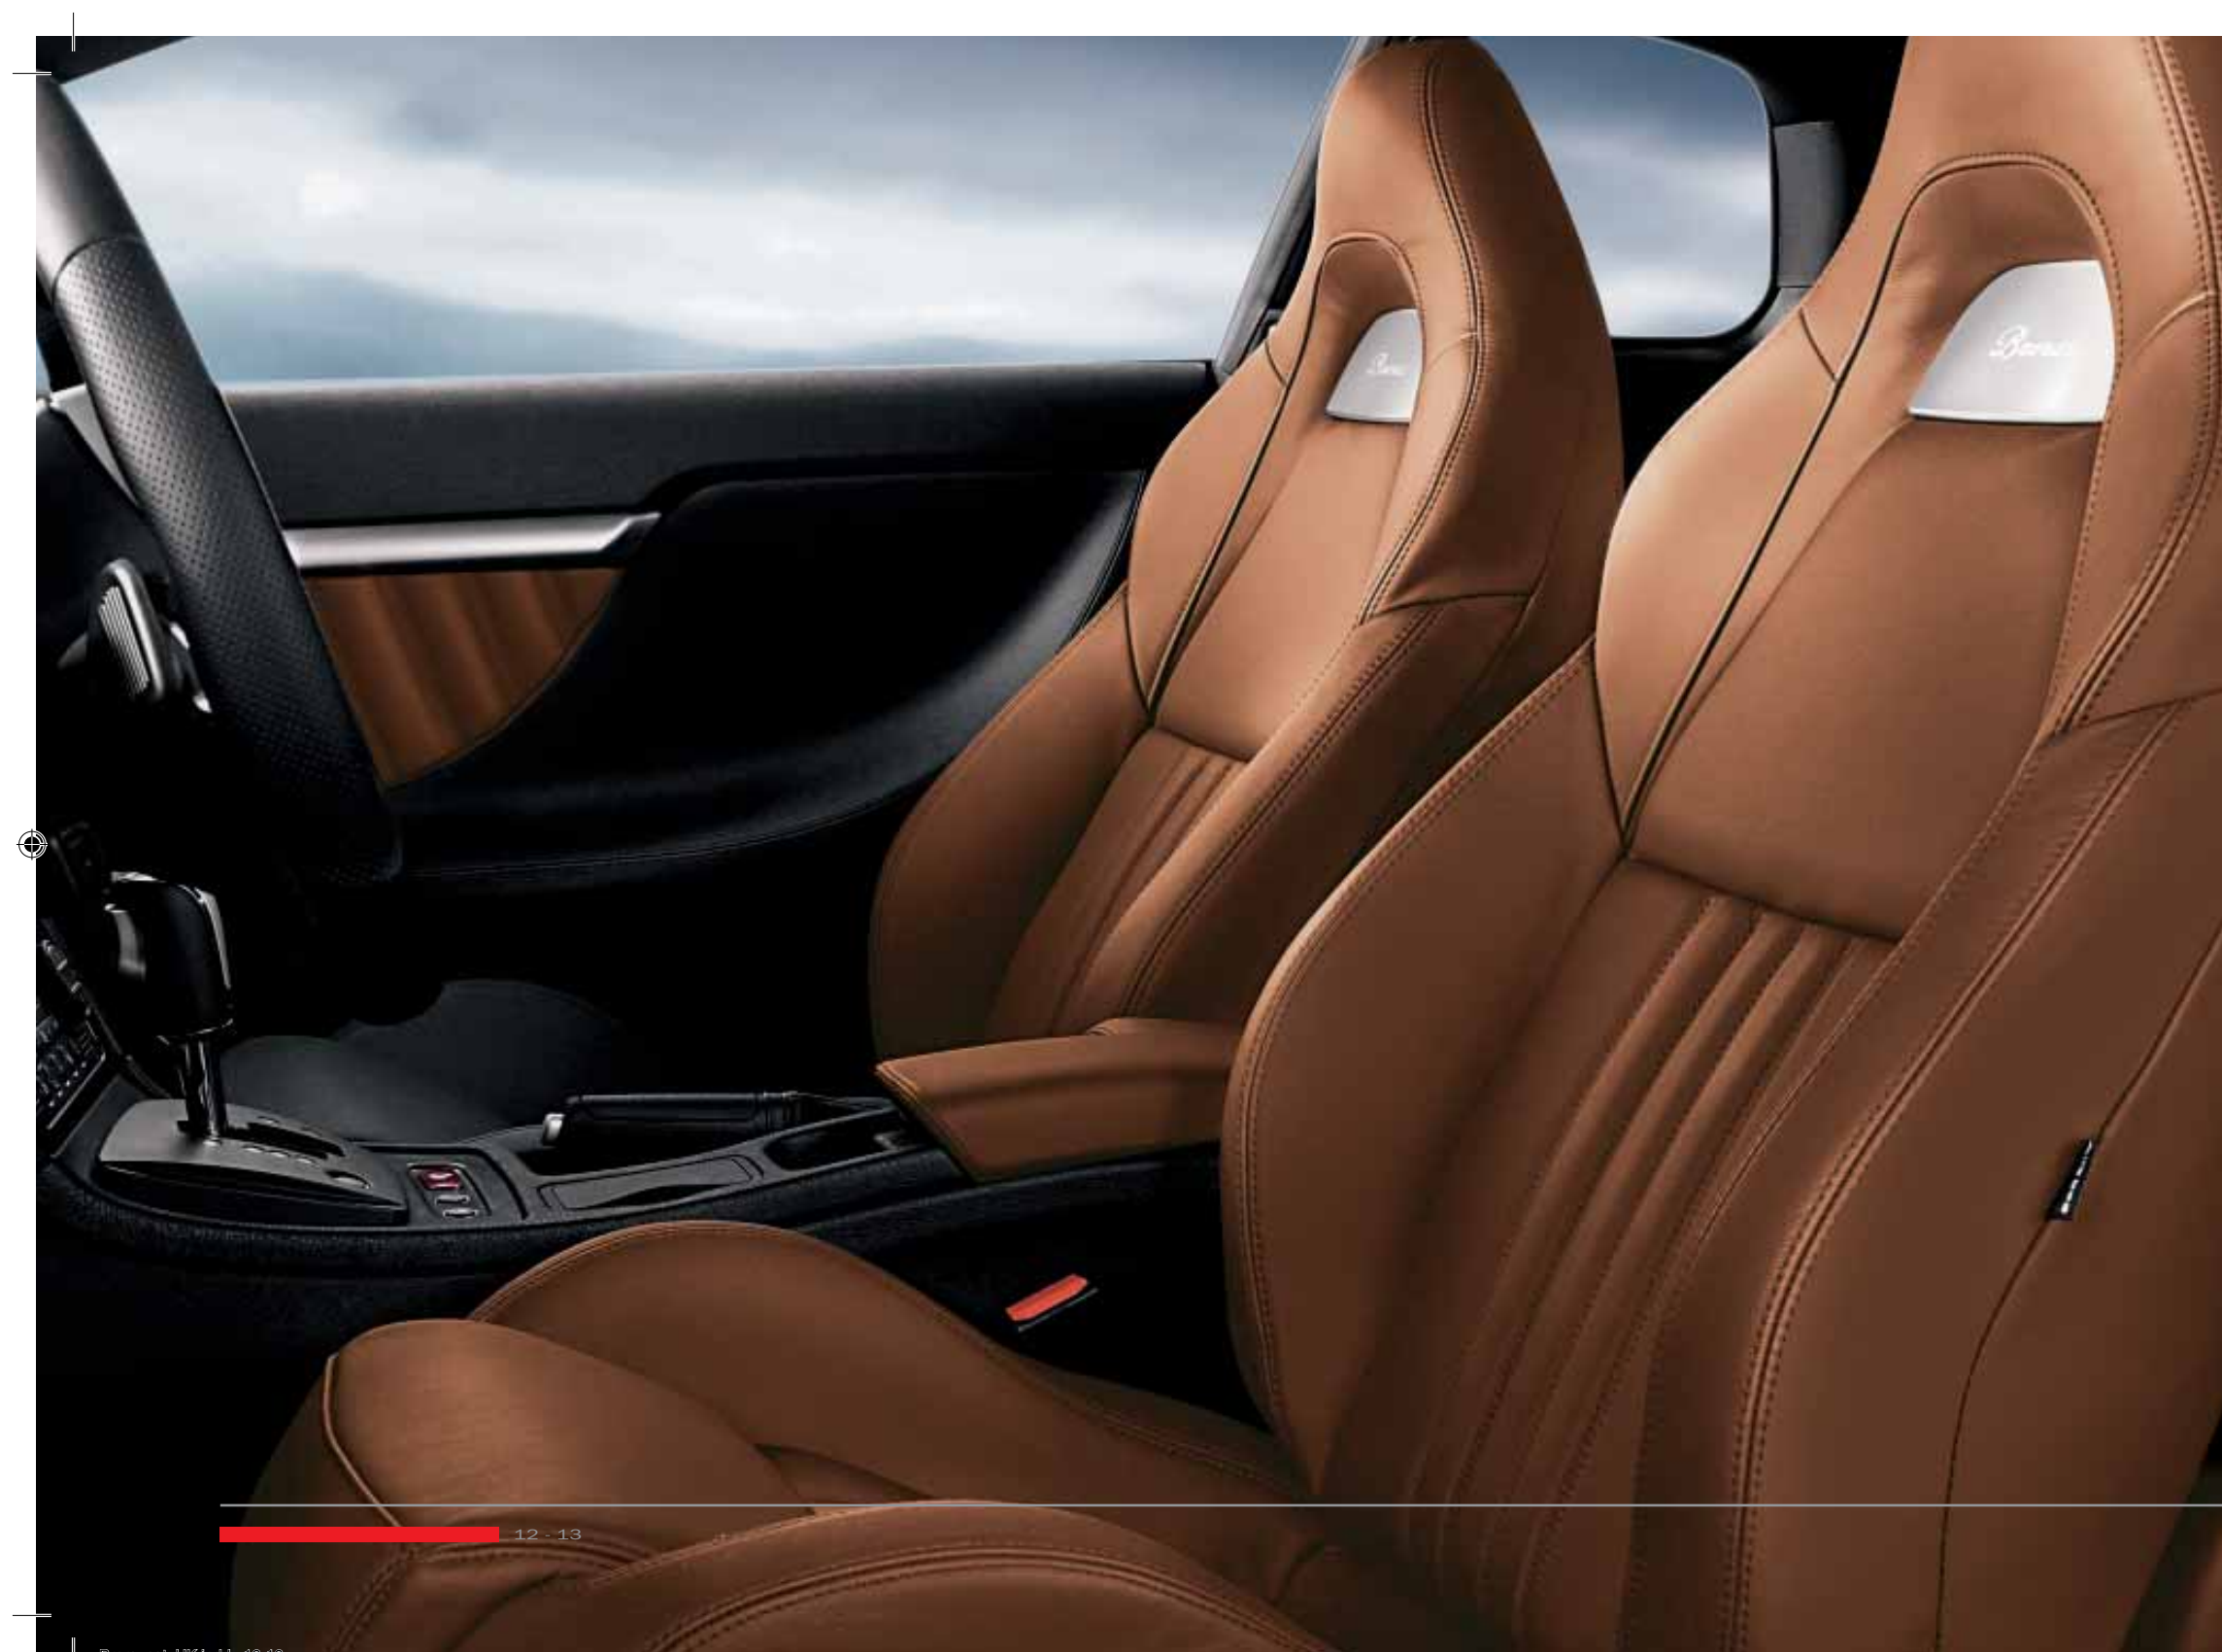

To let you choose your driving style every time you set off and to optimise performance and fuel consumption, the 3.2 JTS V6 Q4 and 2.4 JTDM are both available with the Q-Tronic automatic 6-speed transmission. On top of offering ultimate power and total reliability, the Q-Tronic system lets you choose between three driving modes: the basic Comfort mode for a more relaxed drive, Sport for maximum performance and Winter for safety over wet and slippery surfaces.

Q4

Driving pleasure

State of the art

Sport performance, comfort and exclusivity all await you in a Brera. Pure sporting appeal is evident in the black interior characterised by a black dash, brushed burnished aluminium trim, sport seats and leather sport steering wheel with red or black stitching. Driving the Brera is a full sensory experience, with cruise control, dual zone climate control, steering wheel controls for the radio, CD and MP3 players, and parking sensors. If you like your cars exclusive, you can even specify upholstery in Frau® or luxurious Poltrona Frau® leather in black, red or natural, with unique softness.

Performance and comfort.

Let the show begin

The Brera comes equipped with Blue&Me™, the hands-free system with voice recognition based on Windows Mobile® technology. You can use your own voice or the function keys on the steering wheel to operate your mobile phone over a Bluetooth® connection or to listen to music from a media player or pen drive.

If you feel happier when you receive clear directions to your destination, the Brera offers two solutions. Blue&Me™ Nav incorporates all the standard functions of Blue&Me™ plus a simple and user friendly pictographic sat-nav system. Alternatively, you can choose a map based sat-nav system with a 6.5" LCD display that also provides display and control functions for the radio, CD player and MP3 player, plus voice-controlled, hands-free, GSM mobile communications.

Multimedia

Sporting heritage

The Brera has been the ultimate in sporting pedigree since it first launched in 1966. This legendary car pays homage to the classic Alfa Romeo tradition whilst being fully equipped with the most coveted performance enhancing accessories. In addition to the superior engines, design and high tech devices, there are a variety of wheel options to choose from, including the 18" Turbine wheel which helps enhance the sporty feel of the car.

For those who like to push the limits

The Brera is the ultimate in luxury, from the inside out. Its elegant flowing lines and steeply tapering front and rear combine to give the car a compact, sleek appearance. Sharing design elements with the legendary 8C Competizione, the Brera embodies pure Italian craftsmanship and style. And that's just the outside - with the spacious interior upholstered in soft leather, the Brera is a true pleasure to drive.
